

Ye Siyuan

Dual-Degree Student in Computer Science and Electrical & Computer Engineering
Ann Arbor, MI | siyuanye@umich.edu

Education

University of Michigan, B.S.E. in Computer Science – Ann Arbor, MI Sept 2026 – May 2028

- UM-SJTU Joint Institute Dual Degree Program
- Undergraduate study in Computer Science
- Expected graduation: 2028

Shanghai Jiao Tong University, B.S. in Electrical and Computer Engineering – Shanghai, China Aug 2024 – May 2028

- UM-SJTU Joint Institute Dual Degree Program
- Completed the first two years of undergraduate study in Electrical and Computer Engineering
- Cumulative GPA: 3.53/4.00

Research Experience

Undergraduate Research Group Member, Shanghai Jiao Tong University – Shanghai, China 2026 – present
AI Kernel Benchmarking

- Contribute to a research project evaluating the capability of AI systems to generate high-performance computational kernels.
- Benchmark AI-generated kernels across different workloads and deploy evaluations across heterogeneous hardware platforms, including GPUs, NPUs, and CPUs.
- Evaluate kernel correctness and performance using Python, PyTorch, CUDA-related tooling, and hardware-specific benchmarking workflows.

Teaching Experience

Teaching Assistant, Shanghai Jiao Tong University – Shanghai, China Sept 2025 – present
ENGR1000J Section 3 and ENGR1510J

- Helped configure and test the Gitea-based online judging system for programming assignments.
- Held weekly office hours and recitation sessions to assist students with homework and course projects.
- Assisted students with programming and debugging in MATLAB, C, C++, and Elm.

Selected Projects

Elm-Based Web Games – Shanghai, China May 2025 – Aug 2025
ENGR1000J - Introduction to Engineering, Section 3

- Developed two browser-based games using Elm, a functional programming language, and Messenger, a 2D game engine.
- Applied functional programming concepts to implement game logic and interactive gameplay.

Leadership and Activities

- Team Leader**, JI Youth Volunteer Team – Shanghai, China May 2025 – May 2026
- Led a team on a three-week volunteer teaching program across four primary schools in Yunnan Province.
 - Led a team to Anhui Province for a five-day volunteer teaching program.
 - Organized labor-education activities and campus-wide orienteering events.
 - Developed social media content and promotional merchandise to improve student engagement.

- Core Member**, JI Student Union, Career Department – Shanghai, China Oct 2024 – Oct 2025
- Co-organized the college’s corporate recruitment fair and communicated with corporate HR representatives.

Honors and Awards

- Excellent Award & Outstanding Integration Award, Liming Cup Mechanical Innovation Competition for Freshmen** 2025
- Student Development Scholarship** 2025
- Excellent Volunteer of Student Union** 2025

Technical Skills

- Programming:** C/C++, Python, Elm
- ML & GPU Computing:** PyTorch, CUDA
- Tools:** Linux, Git, LaTeX, Neovim
- Languages:** English (TOEFL 108), Chinese (Native)
